Summary

MCA graduate with a strong foundation in Java, HTML, CSS, JavaScript, Node.js, Express.js, MySQL, and GitHub. Skilled in developing responsive web applications, REST APIs, database management, and real-time communication systems. Passionate about software development and problem solving. Seeking an entry-level Software Developer or Web Developer role.

Technical Skills

Programming	Java, JavaScript, Python
Languages	
Frontend	HTML5, CSS3, Responsive Web Design
Backend	Node.js, Express.js
Database	SQL, MySQL
Libraries & APIs	Socket.io, WebRTC, REST APIs, JSON
Tools	GitHub, VS Code, Microsoft Excel, PowerBI

Education

B.S. Abdur Rahman Crescent Institute of Science and Technology <i>Master of Computer Applications (MCA)</i> CGPA: 7.1	2024–2026
Prince Shri Venkateshwara Arts and Science College <i>Bachelor of Computer Applications (BCA)</i> CGPA: 7.5	2021–2024

Projects

Real-Time Multilingual Video Call Translation System

- Built an AI-powered multilingual video calling application using WebRTC, Socket.io, Node.js, and Express.js.
- Implemented speech-to-text, language translation, and text-to-speech features.
- Developed peer-to-peer communication using WebRTC.
- Integrated REST APIs and JSON for seamless communication.

Monkey Mart – Food Delivery Portal

- Monkey Mart is a responsive food-ordering website.
- It offers category-based shopping for meals, drinks, snacks, bakery items, and dairy.
- The homepage includes promotional sliders, fast-delivery messaging, and an interactive Monkey Mart mascot.
- Food cards use attractive image backgrounds, prices, and time-based menu recommendations.
- The design focuses on a modern, colourful, and user-friendly shopping experience.

Unity VoteNet - Online Voting portal

- Unity Vote Net is an online voting system developed using HTML, CSS, and JavaScript.
- Firebase is used for user authentication and storing voting-related data.
- The system provides a simple and user-friendly interface for voters.
- It enables secure digital voting and efficient management of election data.
- The application helps improve the speed, accessibility, and transparency of the voting process.

Certifications

100 Days of Code – Web Development Bootcamp (Udemy)

- Duration: 79.5 Hours
- Technologies: HTML5, CSS3, JavaScript, Node.js, Express.js, Git, GitHub, REST APIs

Introduction to SQL (Simplilearn)

- Completed: 13th July 2026
- Certificate Code: 10464598

Personal Skills

Problem Solving	Analytical Thinking	Team Collaboration	Communication
Time Management	Quick Learner	Adaptability	Attention to Detail
